On the high seas, the beach or an ocean liner, Zig, a hungry hyena has one thing in mind: dining on Marina, the carefree mermaid. The Distribution Cycle

We are incredibly proud to be among the nominees of this year Unifrance's export award in the animation category! Reaching this new milestone wouldn't have been possible without the talented distribution team at Xilam, comprising of a dozen people, all experts in their field: from sales to marketing, and including digital and licensing!

Sold in over 180 territories on Free & Pay TV, while building strong digital communities on dedicated social media accounts with a total of around 40 million subscribers, and an extended digital distribution across VOD platforms in all continents, the season 3 of ZIG & SHARKO has helped us reach new heights! We'd like to take the opportunity to thank to all of our partners around the world for their trust and strong support since the very first episodes. The brand would not be here without you!

Producing a third season is always a challenge but the creative team of the show had endless gags to offer in a new geographical setting while keeping the original successful ingredients of the series: humor, action, imagination, wackiness, and of course friendship! And more over, all of these new episodes are still without any dialogues, which help the series travel even more!
